THITHIKSHA A

+91 7810012962 | thithikshathithiksha23@gmail.com | LinkedIn | GitHub | LeetCode

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate (CGPA 8.69) focused on machine learning and generative AI, with full-stack skills in the MERN stack (MongoDB, Express.js, React.js, Node.js). Built projects with Python, FastAPI, React and Flutter, including Gemini-powered applications and a scikit-learn classification workflow, and completed a machine learning internship. Solved 220 LeetCode problems. Seeking AI/ML engineering opportunities.

EDUCATION

Sri Shakthi Institute of Engineering and Technology 2024 – 2028
B.E. Computer Science and Engineering • CGPA: 8.69 / 10

P.M. Shri Kendriya Vidyalaya, Aruvankadu (CBSE)
Class XII: 91% 2023 – 2024
Class X: 88% 2021 – 2022

SKILLS

- **Programming:** Java, Python, JavaScript, TypeScript
- **Frameworks & APIs:** Flutter, FastAPI, React.js, Node.js, Express.js, Flask, Streamlit, REST APIs
- **Databases:** PostgreSQL, Firebase Firestore, MongoDB, SQL
- **AI/ML & Tools:** Scikit-learn, Logistic Regression, KNN, PCA, Bayesian Knowledge Tracing, AST Analysis, Google Gemini API, Git/GitHub
- **Relevant Coursework:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Artificial Intelligence, Machine Learning
- **Soft Skills:** Problem Solving, Communication, Teamwork, Time Management, Adaptability

PROJECTS

CodeSense — Algorithmic Knowledge Tracing & Code Intelligence
GitHub
TypeScript, React, Node.js, Gemini API, Firestore

- Built a coding-practice intelligence platform that analyzes 100+ problem-submission histories to identify skill gaps, debugging friction, and topic-level struggles.
- Integrated Gemini-powered syntax/logical bug analysis and algorithm trade-off feedback; designed a modular architecture spanning ML logic, REST APIs, Firestore, and the React client.

VoiceIQ — AI-Powered Speech Practice Coach
GitHub
Flutter, Dart, FastAPI, Google Gemini API, SQLAlchemy, PostgreSQL

- Developed a mobile speaking-practice workflow with audio recording, transcript generation, session history, and student/admin dashboards.
- Implemented AI feedback across fluency, pronunciation, grammar, vocabulary, and confidence; calculates words per minute and filler-word counts from transcripts.

Breast Cancer Detection Using Machine Learning
GitHub
Python, Scikit-learn, Pandas, NumPy, PCA, Streamlit, Joblib

- Built a classification workflow for benign/malignant prediction from diagnostic features; implemented Logistic Regression and KNN with PCA for dimensionality reduction.
- Prepared data and evaluated models; serialized trained model artifacts with Joblib and created a Streamlit interface for interactive predictions.

CERTIFICATIONS

- Certification in Generative AI
- Certification in Prompt Engineering
- Programming in Java — NPTEL
- SIH Internal Selection Certificate

ACHIEVEMENTS

Internship

- Completed a Machine Learning internship at BrainerySpot Technologies.

Hackathons & Competitions

- Shortlisted in the internal Smart India Hackathon (SIH).
- Selected for the ICPC Preliminary Round.
- Participated in a 24-hour hackathon at SRM University, Trichy.
- Participated in a 24-hour hackathon at EASA College of Engineering.

Problem Solving & Leadership

- Solved 220 LeetCode problems, focusing on advanced concepts.
- Conducted a technical event, CODER ACT.
